## FROM OUR FOUNDER'S DESK

Innovation has been the key driving factor for Reni International Co. Ltd. We take pride in placing ourselves parallel with technological innovations as they happen. It doesn't matter when the market understands. The seeds need to be planted early for awareness to happen. This helps save future costs for our clients.

We assure to you the best technology combined with decades of experience that our engineers bring to ensure that our clients are assured of quality, performance and standards.

I invite you to experience working with us. We guarantee that all clients will be treated as family.

Thank you,

A handwritten signature in white ink, appearing to read 'Dipak Vassa', is written over a light blue circular background. A thin white line extends from the end of the signature towards the upper right.

DIPAK VASSA

# CREATE, INSPIRE, DELIVER.

**ABOUT US**  
(COMPANY OVERVIEW)

# INSPIRED PARTNERS FROM CONCEPT TO COMPLETION.

Reni Intl. Co. Ltd, is certified by Contractors Registration Board (CRB)

1. **Specialised Contractor CLASS ONE – PLUMBING & SANITATION.**  
Registration No. SPM1/0332/12/2012
2. **Specialised Contractor CLASS ONE – FIRE PREVENTION & PROTECTION SYSTEMS.** Registration No. SPM1/0380/01/2018

The following are our outline of products and services which we offer across Tanzania, in which we wish to communicate future cooperation with you;

- 1) Fire prevention systems; equipment (UL listed), safety equipment, fire and rescue vehicles and ambulances
- 2) Plumbing & sanitation solutions; pipes and fittings (PPR, PVC, GI, Grooved, Vulcathene, HDPE, IPS) and sanitary ware
- 3) Pumps & accessories; water, submersible, swimming pool and laboratory accessories
- 4) Water solutions; purifiers and desalination plants, domestic commercial water purifiers, Ultra Violet & Reverse Osmosis purifiers.
- 5) GRP and Pressed steel water tanks
- 6) Sewage and effluent treatment plants
- 7) Alternate / renewable energy; solar lighting, solar batteries, solar water heaters, inverters, online UPS, and wind turbines
- 8) Construction chemicals; water proofing, tiling, and roofing
- 9) Construction materials; roof waterproofing, and foundation sealing
- 10) Drip irrigation accessories

We are committed to providing the most comprehensive and reliable supply of Equipments and services to give convenience, protect lives and properties. Our clients are assured of the best quality products which meet international standards.

Reni International Co.Ltd is emerging as a growing supply and service oriented company and we are now at the stage to consolidate our position as one of the successful brand. Even though Reni International is distinguished by its quality and service, its hallmark skill is the 'one to one' relationship it enjoys with every client. This key factor has generated goodwill and developed client relationship of utmost endurance.

As **CLASS 1 Plumbing Contractors** and **CLASS 1 Fire Fighting Contractors**, we have a broad range of expertise at the disposal of clients. We are also registered suppliers for the Government institutions (GPSA).

Ours is a one stop shop where clients or consultants can delegate responsibilities of the entire job to us.

Finally to put it one word, Reni International is **"Committed to Excellence"**.

Reni International was founded in 1997 and since then has been driven to successfully establish a reputation for providing quality solutions to clients across a broad range of industries.

## HISTORY: NO PROBLEMS, ONLY SOLUTIONS.

'No problems, Only solutions' approach quickly spread, and as the demand for innovative, cost effective partnerships grew, so too did our company. Today, we have numerous contracts across the country, ranging from simple maintenance and servicing to major infrastructure and construction projects.

## WE ARE DISTRIBUTORS OF:

**PRODUCTS  
& SERVICES**

From Fire Suppression Systems to Sprinkler systems, we assist clients with designing and installation of fire systems to ensure proper certification and safety standards.

## PRODUCTS & SERVICES

# RENEWABLE ENERGY

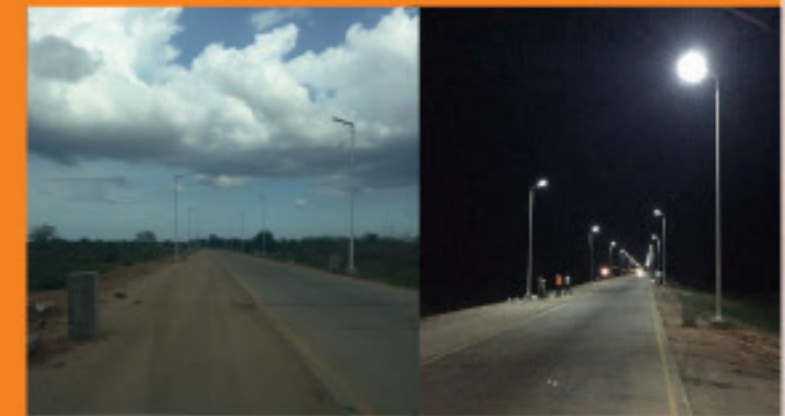

Every hour the sun beams onto Earth more than enough energy to satisfy global energy needs for an entire year. Solar energy is the technology used to harness the sun's energy and make it usable. Today, the technology produces less than one tenth of one percent of global energy demand.

We make clean energy available to homeowners, businesses, schools, non profit and government organizations at a lower cost than they pay for energy generated by burning fossil fuels like coal, oil and natural gas.

Our approach is to install systems to the highest engineering standards while making the switch simple for our customers. We've revolutionized the way energy is delivered by giving customers a cleaner, more affordable alternative to their monthly utility bill.

## SOLAR STREET LIGHTS

Our solar street lights have been installed at various locations in the country with clients ranging from Government to Private clients who enjoy the benefits of our custom designed lights. These have in built energy saving and security mechanisms that will give a hassle free experience to our clients.

Reni International Co. Ltd. makes it easy for customers to switch to cleaner energy. We take a comprehensive look at our customers' energy usage and identify opportunities for improvements. We are the only company that offers integrated sales, design, installation, monitoring and efficiency services from a single source, without requiring the services of multiple third-parties.

Our project management and performance monitoring systems provide our customers a real-time view of their net energy consumption.

## CSR

**WE GIVE WHERE WE LIVE**

Dipak Vassa, the founder of the company, has always believed that it is society that gives us our identity and we shall pay back to it for the upliftment of its deprived members. His establishing the company happens to be the living proof of his belief.

Our philosophy of doing business is to contribute to physical infrastructure and social capital which extends its benefits to community as whole. And we've always initiated many programmes and taken up many causes for grassroots development.

Through acts of giving, big and small. We are committed to driving positive social outcomes in the areas of education, health & environment by harnessing the power of technology. We call this the giving effect.

1) The family runs the Global Partnership Development Foundation (GPDF) which is an NGO that is driven to tackle globally challenging issues such as Water shortages, Sanitation, Global Warming, Human Rights, Malnutrition, Education by developing chosen areas and contributing towards the inhabitants.

2) Mr. Dipak Vassa is also the trustee for the Human Welfare Trust which strives to help the under privileged. Various works such as building schools, hospitals, crematoriums, and enabling welfare sustainability have been achieved.

3) Saubrah Shah brings valuable usiness development to the company. Saurabh leads this direction to strive towards growth in various sectors of the economy. A pilot by profession, he emphasizes the importance of maintaining high standards of quality in the supply and services to our clients.
